Interaty and Classical knowledge, he may at the same time secure a practical and thooretical knowledge of Bookkeeping and Business.

Each department is under the general supervision of the Principal, whose long experience as teacher in the Detroit Commercial College, and as practical accountant, makes him emineatly qualified to make this institution take rank with our first class Commercial Schools.

The system of Penmanship taught here is made a speciality and is unrivaled for practical and artistic excellence its principal and attractive features being legibility, beanty and ease of execution. At several State Fairs the Principal has been awarded the first Premiums over many worthy competitors for best specimens of Business and Ornamental Penmanship.

Training in Commercial Arithmetic and business calendation is also a speciality in this institution. Every student should be able to make legible record of his deliy business work and give accurate solution of all problems connected therewith. The improved method of clucidation make these branches of college exercises interesting as well as Instructive. Indeed they are really the grand starting points of the student to other departments of the steener duties of practical every day life.

Deficiency in these particulars is an acknowledged fact with many of our young men just starting in business to which is tracable also many of the failures of business men. Well founded in those is a sure passport to success. Hereon is reared many modest as well as gigantic fortunes. The above is as reliable a Company as can be found in the United States, a fact which I shall be happy to prove to any one who will take the trouble to inquire. I am now prepared to issue Policies in the above Company at satisfactory rates. Call and get rates before in suring elsewhere.

ore Throat, Colds, Coughs, Diptheris, Bronchitts, Spitsting of Blood, and Pulmonary Affections generally. It is a remarkable Remody for Koney Complaints, Diabetes, Difficulty of Volding Urine, Electing from the Kidneys and Bladder, Gravel and other complaints. The White Pine Compound.

The White Pine Compound.

"It was early in the spring of 1555 that this compound was originated. A member of my amily was affilted with an irritation of the throat, attended with a deagreeable cough. I had for some months provious thought that a preparation having for its basis the inside bark of white pine might be so compounded as to be very neeful in diseases of the throat and lungs. To test the value of it in the case alimed to, I compounded as mall quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided and a speedy cure was effected. Soon after this I sent some to a lady in London-derry, N. H., who had been suffering for some weeks from a tend cough, occasioned by a sudden cold, and had reised mucus streaked with blood. She soon found relief, and sent for more. She took about ten ounces of it, and got well. J. B. Clarke, Esq., editor of the Manchester Dally Mirror, made a trial of the same preparation in the case of a severe cold and was cured immediately. He was so highly pleased with the results, and so condident in success attending its sales, if placed before the public, that he finally persuaded me to give it a name, and send it abroad to benefit the suffering. In November, 1865, I first advertised it under the name of White Pine Compound. In two years from that time there had been worth, where it took the lead of all the cough remedies in the market, and it still maintains that position. There is good reasons for all this; it is very soothing and healing in its nature, is warming to the stomach, and pleasant withal to the taste, and is exceedingly cheap.

"As a remedy for kiding complaint the White Pine Compound stands unitivaled. It was not originated for that purpose; but a person in using it for a cough was not only cured of the cough, but was also cured of a kidney difficulty of ten years standing. Since that accidental discovery many thousands have use

gland States. This remedy is as safe and pleasant to take as it is ef-The Editor of the Manchester Daily and Weekly Mir-

The Editor of the Manchester Daily and Weekly Mirror, in the leader of the Daily, thus writes of the Compound:—"The White Pine Compound is advertised at much length in our columns, and we are happy to learn that the demand for it is increasing beyond all previous expectations. It is the very best medicine for coughs and colds we know of, and no family that has once used it will ever be without it. We speak from our own knowledge; it is sure to kill a cold; and pleasant as it is sure. The greatest inventions come by accident, and it is singular that the White Pine Compound, made fwe coughs and colds should prove, to be the greatest remedy for kidney difficulties known. But so it is. We cannot doubt it, so many testimonials come to us from well-known men. Besides, the character of Dr. Poland is such that he will not counterance what is wrong. For years a Raptist clergyman, studying medicine to find remedies for his ailments, with a delicate, consumptive look, standing with one foot upon the grave, he made the discovery which has saved himself, and called out from others the strongest testimonials possible. We have known Dr. Poland for years and never knew a more conscientious, honest, upright man, and are glad to state that we believe whatever he says about his White Pine Compound."
